**Instruction for the assignment**

- In this assignment ,you will be practising the various various HTML tags such table , forms etc.
- Create a Bio-Data Form and School Time Table.

**How to Submit the Form**
- You have to make video of the front-end (browser only) or you can record the screen and upload this video using google form provided in the description of your whatsapp group.
- You also have to upload your code to github and paste the link of the code in the form (make sure you create a public repo on github)
- You have to submit your assignment before the next class.

You are supposed to use the tags which we have learned in the class.
